

**FOR IMMEDIATE RELEASE**

## **Press Release**

### ***GIS awarded exclusive DAN-Palletiser Distribution for North and South America***

GIS brings four decades of world-class palletising systems to North and South America

**Allentown, Pennsylvania** DAN-Palletiser has been offering world-class palletisers, pack and pallet conveyors, pallet elevators, as well as other internal transport solutions, throughout Europe for decades. DAN-Palletisers are well known for easy product size changeovers and strong performance guarantees to meet all defined production throughput requirements.

*“We can now offer our customers throughout North and South America the highest quality palletising solutions available with the complete DAN-Palletiser product line”* stated **GIS** president Randy Seidel.

DAN-Palletiser founder and Managing Director, Knud Jensen has spent the past four decades focused exclusively on designing and manufacturing palletising systems. *“We have installed forty DAN-Palletiser stations for News International throughout England”* stated Mr. Jensen.

The new team is perfectly matched as DAN-Palletiser maintains total focus on palletising, and **GIS** provides complete system integration from folder deliveries, stacking and strapping through palletising.

The team’s recent customer visits were well received. *“The response from newspapers and printers is extremely positive regarding the automation of their post press process”*, commented **GIS** Senior Vice President Bruce Barna. *“The primary goal of this new partnership between **GIS** and DAN-Palletiser is to eliminate the post-press bottleneck to dramatically reduce labor costs while improving throughput”*, added Barna.

**GIS** is a global provider of system integration processes for the newspaper and commercial printing industries dedicated to providing creative post-press solutions for improving manufacturing efficiencies, reducing costs and improving profitability.

For additional **GIS** and DAN Palletiser information, please contact Bruce Barna at 412-973-3388 or via email: [bruce@gis-now.com](mailto:bruce@gis-now.com).
